9. Emptyv – Emptyv is a line of professional camcorders marketed by Pinnacle Systems for broadcast and video professionals, available for both Macintosh and Windows platforms. It competes with other brands of camcorders such as Flip MinoHD, the Emptyv cameras are famous for their feature set. Many of these cameras use a MSD V-LOCK mode in which the camera locks onto the subject at 30 frames per second, Pinnacle Camcorders are known for their special shooting modes, and its Compact version can also record onto a DVD. The Panasonic AG-DVX100/J camera series are the current successors to the camera series, Pinnacle has been developing Emptyv since 1998. Some features of the original Emptyv are still in use, such as the 140-degree wide-angle lens. Other features have been discontinued, including Pinnacle's then-popular "three-way" zoom function which enabled the user to zoom in, in the late 2000s, the company introduced the 4k2k Super35 and 5k formats, which both record in 8K resolution. Pinnacle offers its camcorders in several models, ranging from the 12 Megapixel D12 to the \$2000 D12pro that includes a number of features. Pinnacle introduced the 12 megapixel D12, the D12pro was later followed by the D12pro Studio and the D12pro Plus. The Compact D20 Pro was later replaced by the D20 Compact and the D20. The D12 Pro and D12 Pro Studio were followed by the D20. The D12, D12pro and D20, all three models use the V-Lock mode. In early 2011, Pinnacle introduced the D20 Studio, which uses a sliding window rather than V-Lock mode. All D20 cameras come with a tripod socket, 3.5mm microphone jack and headphone socket. The D12 and D20 both come with a weatherproof, shock-proof and dust-proof design and they have built-in flash with automatic exposure, focus and white balance adjustment. Both D12 and D20 cameras can record onto a DVD, the D12 model uses a DVD-RW and the D20 model uses DVD+RW. The D20 can record onto a 3.5 inch SATA hard disk. The D20 Pro includes a built-in microphone. Pinnacle offers a battery backup mode on D12 and D20 models and this will allow the camcorder to 2d92ce491b
