It is a shareware and freeware database that contains a list of drivers for Windows XP.. microsoft Category: Computer hardware Category: Electronic hardware Category: Electronic components Category: Computer hardware componentsThe present invention relates to a needle-less injection syringe, and particularly, to a needle-less injection syringe, which can be conveniently used. Conventional syringe injection needles cannot be used repeatedly because of their single use, and further, when they are to be used repeatedly, they not only become befouled, but their action becomes unstable. They are not only unsanitary, but the needle marks on the users' skin are dangerous. They will cause secondary infection when they are not disposed of safely and conveniently after use. Thus, it is necessary to provide a needle-less injection syringe, which can be conveniently used, and can be safely disposed of.Q: How to know if
