I use it to record the screen of my laptop for the instruction of my nephews and it works, I also use it to my exam to watch it and learn it. Great. I also have test with it in my hometown. I like the team for this great application. Thank you. EasyDCP Player is a powerful and easy-to-use tool that allows you to watch an uploaded file in a bitrate-optimized format, be it a DCP, H.264, AVI, MP4 or MKV file. It is an open-source software tool that is simple, fast and easy to install and use. The UI is modern, clean and intuitive. A tool of this caliber is a great addition to any media player or multi-platform desktop. The file manager supports drag-and-drop, as well as the full path. EasyDCP Player, unlike online streaming services, puts the user in full control of the playback quality. The user can watch the video at any bitrate, adjust the presentation according to his/her needs, alter the playback speed and, if required, use subtitles. It is the first of its kind to employ a completely customizable color look-and-feel, making it an indispensable tool for film studies and education. Thank You for Submitting a Reply,!
