If you are having problems with cron jobs, then this tool is the solution. This utility can be launched as a command-line script. It will do all the work needed to schedule tasks. While thinking to find out some best Alarm Clock and to develop a useful utility. I came across a concept which I liked to implement. The concept is as follows: When user runs this tool with their executable as argument, this tool will get the file extension of the executable and will create a folder with a name which has the same name of the executable. It will move the executable to this newly created folder. The folder will contain a text file which contains an username and a password. If the username/password is correct then the executable will be opened. I was successful in implementing this concept and it is now available for users to try out. To use the tool, you should install Perl and tcl/tk along with tcllib. Download the executable, put this executable in any

"Clerks 2" is a sequel to 1992's cult classic "Clerks" and follows the same character, Dante, as he seeks retribution against Randall (A.C.) and sells some drugs, which he does not do at first, however, as he does in the first movie. In "Clerks 2", he is then forced to take out a loan so that he can support his pregnant girlfriend, Stump, who is a background character in the first movie, and his baby daughter, Angie. He then travels out to his hometown of Las Vegas, Nevada, where he plans on giving his girlfriend and child a better life than the one she is living in the east. In addition to this, he also plans on establishing an office in Las Vegas. Features: Correct and modernized renditions

of the original "Clerks" movie
