Print and sell your photos, instantly! Install a professional Slide Show to print photos from your digital camera or computer and start selling your photos. Batch prints are also very easy to combine, starting at 4 copies. All you need to know before buying! Design your own professional Photo slideshows It includes a professional Slide Show - slideshow creator - and you can even design your own slideshow titles. When is a good time to print and sell? It is a good time to print and sell your photos when you're experiencing two of the following: 1- You're gaining popularity and recognition for your photos 2- You're experiencing a rise in need for a particular photo 3- You see a rise in the money you can make for your photos 1 - Benefits of selling your photos The benefits of selling your photos is that you can end up with increased profits and security, and you also get to end up with an unexpected boost to your self confidence. 2 - Benefits of printing and selling your photos With digital photography, you can go from taking the picture to having it printed in less than 5 minutes. This gives you more time to spend on doing what you need, making you more productive. If you have a professional image ready to be printed, you can also get more people to buy it. 3 - Reasons why this is a good time to sell your photos There are various reasons why this is a good time to start selling your photos. 1. You're earning good money 2. You can increase your self-confidence 3. You're increasing your portfolio of work What you should do to start selling your photos 1 - Start with one or two of your favorite photos When you start out, you should limit yourself to selling one or two of your favorite photos. The more you have to sell, the more difficult it will be to find enough customers to make it worthwhile. 2 - Get your photos printed You will need a printer or a friend with a printer. If you want to print more than 10 photos, a professional printer is recommended. Depending on your choice of printer, you may want to order on a larger scale (e.g., 4-10 printings) or a smaller scale (e.g., 5 printings). 3 - Start small You should start with a print run of between 2 and 5 copies. Start with a small print run and gradually increase as your motivation levels rise. You 6a5afdab4c

Hi, Yeah, I remember that. The BSN version I have is 'newer' than the one you mentioned above, for example, my version is at 23.2 and the one you mention is only 23.1. I have no problem, although the latest version is not available at the moment. I must wait a few more days and hope the latest version will be out. The compatibility issue appears to be caused by a combination of two things: 1) the order set function being unavailable at 23.2 2) the lack of a reliable/sensible conversion of BSN's old order sets to new ones. Share this post Link to post Share on other sites Hi, I'm trying to install a BSN order set on my new Banshee 2.4.1. I installed the order set and started it. When Banshee tries to open a file with the order set, I get an error: DB Error: Cannot open DB At the
