A: Why there's no crack available for DDDPool, is most probably due to the fact that the DDD Pool crack, has actually been made public, but the developers did not wish to distribute such binary, and hence to obtain one it's necessary to crack the game. The usage of the crack will give you the freedom to hack the game and change the gameplay. Anyway here you can find the crack, it's a spreader of virus for Mac OS X called Virus: DDDPool, DDDPool.SHA256, Virus: DDDPool, Virus:DDDPool.RT. Paste this in a terminal: `cat Virus:DDDPool.RT | perl -pe 'if(/Contents/Release/.){print}'` You will get: For the curious ones, this is how to use the crack: You will get the binary of DDDPool you need to crack. Open up Virus: DDDPool, DDDPool.SHA256 Run the binary. Save the file in your desktop. Now go to your /Users/username/Desktop/Virus: DDDPool.RT and right click on the file in there and choose "Duplicate..." Now paste the binary you made in step 2. in the "New File" window that appears. Note: If you want to replace the crack with the original game, use the so called "repairing" tool, To repair a virus for Mac OS X, you can follow this article. This is how you can make the game ready for distribution, if you're not afraid of the viruses that you are distributing. I hope you understand me ;) 'BRAZILIAN NATIONALISM' WAS TO BE THE RISK FACTOR IN UN WORLD CUP The world of soccer was in shock on Monday night when Luiz Felipe Scolari was sacked as the head coach of the Brazilian team that will play in the upcoming World Cup finals in South Africa. Scolari was replaced as head coach by the former U.S. national team manager, the Brazilian Ronaldinho, who has been charged with overseeing the preparations for the tournament, which starts on June 12. Scolari had been in charge of Brazil since June 2009, having taken over as interim manager after the sacking of Dunga
