Our favourite Club mode returns with a different approach: EA is adding single-player matches to FIFA 21 Ultimate Team in the spirit of the Legends series. Neymar and Messi are the first teammates to bring this co-op action to life, both featured in their first official Legends Match on Monday. Legendary Matches is a weekly mode that introduces several of the Legend’s in classic modes like classic 6v6 and 4v4 matches against other legends. In addition to Legend matches, the Legendary Matches campaign will feature real-life matches played against legends that take place in Brazil. Another new mode is the "10-A-Side" Exhibition mode, where 32 players on the pitch at once (rather than just 13). "I think FIFA is all about the individual; here's a game that's about the collective. FIFA 20's Collective was a massive hit. The 10-A-Side is our first step into the glory of every player having their own distinct identity on the pitch," said Matt Beard, SVP at Electronic Arts. "Across soccer culture, there's a love for making your team exceptional. The 10-A-Side adds a fantastically fresh dynamic and is the foundation for all other competitive modes in FIFA 22. I don't think I can improve on what we've done with FIFA 18, with the data-driven creation of the Squad, but we're ready to play with more data and experiment with new modes. This is just the beginning." FIFA 21 Ultimate Team Launches Today The Complete Edition of FIFA 21 is available today as an Xbox One or PS4 game or on Origin for PC. Owners of the Standard Edition of the game can download the "Complete Edition" standalone for free in-game. Ultimate Team will be available for purchase separately in-game. Players will also be able to transfer their FIFA Ultimate Team to FIFA 22, and even use their FIFA Ultimate Team to unlock content in the game's new Legends mode. New Features We're constantly listening to community feedback on new features, and the Community team are happy to see the response to our changes to date. We've listened to a variety of opinions on the look of the game. We've added a lot of art assets to make the game visually more exciting and vibrant. One of the biggest changes we made in
