Borne of the dilated mind of three guys, it's a mix of genre-hopping electronic music, unconventional arrangements and a deep appreciation for the power of music. That's why you can hear – and feel – the joy within Thrust's most recent release: Astrochron Season One, their first mixtape. Starting with a four-minute ambience, Astrochron ends up being a slow-building effort that contains minimal beats laced with a trumpet melody, some gorgeous guitar riffing, and a string section carrying two lines that make sense to each other. It's strange, quirky and totally addictive; you feel as if you're listening to all kinds of different music at once. Thrust drops a synth line that would fit perfectly into even a

Chaos at the top of the table is a real possibility Share via Bolton host local rivals Manchester United at Old Trafford today with a title-defending Premier League record on the line. Considering the season has been a disaster from the start, could manager Phil Brown still be given a chance to redeem himself? Ian Holloway's Crystal Palace have an unprecedented chance to move into the top five, sitting fifth in the table, and take advantage by doing what they haven't managed all season – win at home in the league. They do not have an easy route to that goal, with tricky games coming up at home toRenal cell carcinoma metastatic to the parotid gland. Metastasis to the parotid gland from a primary site elsewhere in the body is rare, and most commonly described as a secondary neoplasm. Metastatic renal cell carcinoma to the parotid gland, in contrast, is an even rarer lesion. We present a case of metastatic renal cell carcinoma in a 75-year-old woman who initially presented with a parotid lesion. The tumor, histologically identified by hematoxylin and eosin and periodic acid-Schiff stains, showed characteristic renal cell carcinoma morphology. There was no known history of primary renal carcinoma. The patient was treated successfully with complete parotidectomy.Online commerce is the sale of products or services by an online seller to a buyer using the World Wide Web. Online commerce has been growing for several reasons. First, there are many sellers that cannot easily obtain physical store locations or have not obtained the proper licenses to operate an in-person or brick-and-mortar store. Moreover, sellers can often sell their products to buyers directly instead of going through a third party (e.g., a retailer). One challenge in the online commerce business is to receive a positive online review from a previous customer. Typically, the seller cannot associate an order with a previously submitted online review or obtain any prior context associated with the order. For instance, on Amazon.com, sellers can order online reviews from previous customers to include in their postings. However, by taking this approach, a seller cannot associate the order with the customer or view any context specific to the order. Moreover, it is not uncommon for a customer to skip online review requirements. One approach to encourage a customer to provide an online review is to provide a discount to the customer
